**INTRODUCTION**

The implementation of recommendations of the new Code for Best Corporate Practices in Colombia, shall be reported by issuers to the Financial Superintendence of Colombia (SFC) through the herein Report on Implementation of Best Corporate Practices.

The objective of this report is to inform the stock exchange about the implementation, or not, of the recommendations included in the Code for each issuer. For such purposes, each recommendation has three boxes corresponding to the answers YES, NO, and N.A, as well as a space to complement the answer as follows:

If answer is affirmative, issuer shall briefly describe the manner in which it has carried out the implementation. If answer is negative, issuer shall explain the reason for not implementing such recommendation.

Answer N.A., shall only be provided by the issuer in cases where it has not been possible to adopt a recommendation due to legal reasons. In such event, issuer shall fully describe the regulation that prevents the adoption of a particular recommendation.

Since some recommendations include a series of detailed aspects, it is important to note that these shall be understood as implemented if all aspects are complied with, except if the reason for not implementing some of them has a legal basis, this fact shall be pointed out.

Each recommendation includes a box to indicate the implementation date for the first time. There is an additional box in order to register modification dates.

Finally, when due to its nature, issuer does not have a specific body referred to under the recommendation, it shall be understood that such recommendation refers to an equivalent body within the entity or to a body performing similar tasks.
