Information reported in Ps billions and under IFRS, except per share information

**Bogotá, March 16<sup>th</sup>, 2022. Grupo Aval S.A. (NYSE:AVAL) reported a consolidated attributable net income of Ps 3,297.7 billion (Ps 148.0 pesos per share) for 2021 versus a Ps 2,349.5 billion (Ps 105.4 pesos per share) figure reported for 2020. ROAE was 15.3% and ROAA was 1.6% for 2021.**

## **Key results of the quarter:**

- 2021 was an impressive year of recovery. Not only did the economy roared back to growth when compared to 2020, but also Colombia's GDP, at the end of the year, surpassed in real terms by approximately 3% the size of the country's GDP at the end of 2019. Growth recovery in Central America was also robust.
- Once again, Grupo Aval set a historical high record in attributable net income, which reached Ps 3,298 billion (Ps 148.0 pesos per share) during 2021, an increase of 40.4% versus attributable net income during 2020 (Ps 2,350 billion) and of almost 9% versus the previous all-time high in 2019 (Ps 3,034.4 billion).
- ROAE was 15.3% and ROAA was 1.65% for 2021.
- Consolidated assets grew 13.6% year-on-year, to Ps 367 trillion, consolidated gross loans grew 13.2% year-on-year, to Ps 228 trillion and consolidated deposits grew 10.7% year on year, to Ps 235 trillion.
- At the beginning of the pandemic in 2020, Aval's banks deployed debtor relief programs that benefitted over 30% of the Colombian loan portfolio and approximately 50% of Central America's loan portfolio. As of December, active debt reliefs amounted to approximately 5.3% of the Colombian loan portfolio and 16% of Central America's loan portfolio. Of all loans that have concluded their relief periods, 1% are currently past due 90 days or more (1.6% are currently past due 30 days or more).
- The quality of Aval's loan portfolios continues to materially improve following the relatively high indices caused by the pandemic. The ratio of +30 days past due loans improved by 90 basis points, from 4.9% at the end of 2020 to 4% at the end of 2021. +30 day past due loans for our commercial and consumer loan portfolios improved by 100 basis points. +90 day past due loans improved by 70 basis points during 2021. Additionally, IFRS Stage 1 loans increased by 150 basis points, while Stage 2 loans decreased by 140 basis points and Stage 3 loans basically unchanged.
- Cost of risk for 2021 was 1.87% a significant 110 basis points improvement versus cost of risk during 2020 (2.97%) and a 33 basis points improvement versus cost of risk in 2019 (2.2%)
- Aval's banks ended 2021 with strong Tier 1 ratios ranging between 11.1% (Banco de Occidente) and 13.5% (Banco Popular).
- As in most economies, Colombia's Central bank held interest rates unchanged until October of 2021, and then, as it became evident that inflation was accelerating, increased rates by 125 bps during the last three months of the year. This monetary policy should extend well into 2022.
- Aval's consolidated NIM on loans decreased 7 basis points in the last quarter to 5.75% and 17 basis points for the year (from 5.95% in 2020 to 5.78% in 2021). NIM on investments decreased by 64 basis points during 2021. Total NIM decreased by 36 bps from 5.17% in 2020 to 4.81% in 2021.
- Aval's consolidated Fee Income Ratio improved by 142 basis points, gross fee income grew by 10.6% and net fee income grew by 10.2% during 2021.
- Income from our non-financial sector operations grew 9.8% when compared to 2020, mainly due to better performance from the infrastructure and agribusiness sectors.
- Our funding and liquidity positions continued strong, as evidenced by the Deposits/Net Loans ratio of 1.06x and the Cash/Deposits ratio of 15.6% at year end.
