1. Report of Relevant Information dated April 27, 2018
-

RELEVANT INFORMATION

Bogotá, April 27, 2018. Grupo Aval Acciones y Valores S.A. (“Grupo Aval”) informs the following, with respect to the collapse of Tower B of the Chirajara Bridge, located at Kilometer 64 of the Bogotá – Villavicencio highway, on January 15, 2018:

1. In order to determine the causes of the collapse, Concesionaria Vial de los Andes- Coviandes S.A.S. (“Coviandes”) hired *Modjeski & Masters*, a well-known American consultant with expertise in forensic studies regarding suspension bridges.
 2. The results of the investigation conducted by *Modjeski & Masters* have determined that the collapse of Tower B of the Chirajara Bridge was caused by design errors.
 3. Additionally, the sample tests of concrete, support steel and post-tensed cables led to the conclusion that the quality of the materials used for the construction of the bridge was above the standards required for its design. This conclusion refutes hypothesis of low quality of the materials used in the construction and cost saving reasons as the alleged cause of the collapse.
 4. Regarding Tower C, which remains standing, the results of the investigation identified the presence of fissures that led the consultant to recommend its demolition. With respect to the foundations of Tower C, the structural and geo-technics evaluation conducted by the forensic expert concluded that such foundations: (i) could be used to support a similar bridge and (ii) did not have any incidence in the collapse of Tower B.
 5. Tower C will be demolished as soon as the required authorizations are obtained.
 6. In the meantime, Coviandes will continue performing activities aimed to resuming the construction works as soon as possible.
 7. The bridge was designed by Area Ingenieros Consultores S.A.S., a company appointed by Gisaico S.A., subcontractor in charge of the construction of the bridge.
 8. The Chirajara bridge is part of the concession agreement awarded to Coviandes for the construction of the Bogotá-Villavicencio highway (El Tablón –Chirajara Sector), in which Coninvial S.A.S. (“Coninvial”) acts as the constructor in charge of the works.
 9. Coviandes and Coninvial are subsidiaries of Corficolombiana S.A.
