## Report of 4Q2018 and FY 2018 consolidated results

Information reported in Ps billions and under IFRS

Bogotá, March 14th, 2019. GRUPO AVAL ACCIONES Y VALORES S.A. (“Grupo Aval”) reports a consolidated attributable net income result of Ps 2,912.7 billion (Ps 130.7 pesos per share) for 2018 versus a Ps 1,962.4 billion (Ps 88.1 pesos per share) figure reported for 2017. ROAE for the year was 17.8% and ROAA was 2.2%.

### Key results of the year and quarter:

- 2018 is historically the year of Aval’s best financial performance with total net income of Ps 2.91 trillion (Ps 131/share), an increase of 48.4% versus 2017. Non-recurrent net income amounted to Ps 16 billion or 0.7 pesos per share.
- ROAE for the year was 17.8% for the year. Aval ended 2018 with an accounting tangible capital ratio of 8.4%.
- Total gross loans grew by 6.4% in the year driven by 10.1% growth in the consumer portfolio and 15.1% growth in the mortgage portfolio.
- Despite a 177 bps decline in the average Central Bank rate (2018 vs. 2017), our 2018 NIM on loans declined only 22 bps and finished strong at 6.71%. Total NIM (loans and investments) for the year was 5.67% versus 5.92% in 2017.
- PDL’s and NPL’s showed improvement as of December 31, 2018 versus previous quarters. Our 30+ PDL was 4.25% and our 90+ NPL was 3.07%. Both figures include approximately 42 bps associated to Electricaribe, which is fully-provisioned as of yearend.
- Cost of Risk, net of recoveries for the year was 2.4% versus 2.5% in 2017. Cost of risk during 4Q2018 was expectedly high associated to a non-recurrent marginal provision to bring the banks’ CRDS exposure coverage to the current 45%. Additional provisions to this credit exposure will depend on the final ruling of the Arbitration Tribunal (expected August 2019).
- Total personnel and G&A expenses for the year grew at 4.1% which compares to assets growing close to 10%. This very satisfactory result is due to multiple digital and efficiency-improving strategies launched in all our banking subsidiaries during 2017 and 2018.
- Very strong results from Corficolombiana’s non-financial subsidiaries, principally from Promigas, the gas transportation and distribution company and from the commencement of construction of three toll roads. Corficolombiana contributed with Ps 28 /share to Aval’s results during 2018 and is expected to continue to be a strong source of income in the next years.
- A detail of Aval’s non-recurrent net income during 2018:
  - Banco de Bogotá and Banco Popular effected sales of non-productive assets, which contributed Ps 254 billion of attributable net income.
  - All the entities booked deferred tax recoveries as a result of the 2018 fiscal reform which positively impacted attributable net income in Ps 62 billion.
  - Banco de Occidente and Banco Popular booked extraordinary compensation expenses totaling approximately Ps 30 billion at the attributable net income level.
  - Specific provision expenses were booked in relation to Electricaribe, CRDS and SITP of Ps 600 billion with a post-tax attributable net income impact of Ps 270 billion
  - Finally, strong funding and liquidity positions as deposits/net loans finished at 0.97x and cash/deposits finished at 17.3%.
